DETAILED ACTION

Response to Amendment

This Office Action is responding to applicant's amendment filed on 12-3-2007. Claims 1 & 2 have been amended. Claims 3-6 have been cancelled.

During patent examination, the claims are given the broadest reasonable interpretation consistent with the specification. See *In re Morris*, 127 F.3d 1048, 44 USPQ2d 1023 (Fed. Cir. 1997).

Drawings

The drawings are objected to because Figure 1 illustrates the "loop defense strands", which is new matter. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner,

the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 2 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Specifically, applicant's specification, as originally filed, does not provide support for the loop defense strands. The new matter must be deleted from the claims. –Cam: 1) You should include the statement after this rejection that the new matter must be cancelled from the claims & 2) applicant submitted new figs that also indicate these “loop defense strands” so you should also make a drawing objection w/respect to this 112 new matter. See 1st pg of arguments & replacement fig

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 recites the limitation “the receptacle rim” in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "Dermawear" in line 8. There is insufficient antecedent basis for this limitation in the claim.

Claim 2 recites the limitation "the receptacle rim" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 2 recites the limitation "Dermawear" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim 2 recites the limitation "the loop defense strands" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 2 recites the limitation "the garment" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 2 recites the limitation "the face" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Davis et al (U.S. Patent No. 4,942,885). Davis et al discloses in Figures 1 & 2 a clothing article (10) for use as a condom comprising an opening (40) thereon and a plate assembly (58) including two concentrically arranged plate elements (60, 62), the plate assembly (58) is sewn onto the clothing

article (10) to secure a condom in covering relation over the opening (40) of the clothing article (10), thus, providing a closed system such that would properly protect the user from sexually transmitted diseases and the like. With regards to claim 1 reciting the elastic band, the Davis et al plate assembly (58) is made of flexible plastic-like material (column 4 lines 50-52).

Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Green (U.S. Patent No. 4,862,901). Green discloses a brief (10) comprising fabric panels (22, 26) sewn to the upper edge (20) of the brief (10), the fabric panes (22) shown in Figures 1-4 illustrating them in textured surfaces of looped threads/strands. Figures 3 & 4 illustrating the fabric panels (22, 26) situated above the extension rim (32).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
